WONDER CARCASS BAGS

FOR MEAT & LAMB WRAPPING

ISO 9001 : 2015

SCS Wonder Carcass Bags

THE PREFERRED CARCASS BAGS FOR MEAT & LAMB WRAPPING

Getting the packaging right is critical to maintaining the quality, hygiene and shelf-life of meat or lamb. The same factors of safety, durability and hygiene come into play when choosing the packaging materials for meat or lamb. As the leading manufacturer and supplier of the highest quality Cotton & Polyester Stockinette Meat Bags, we at SCS, are the preferred company across the world for meat packaging.

For over 55 years, we have been continuing our tradition of manufacturing superior quality cotton & polyester stockinette meat wrap bags using the purest of yarns. We have perfected the process of producing safe, precise and strong carcass bags that can cover animals such as lamb, goat, pork, kebab meat, beef, and venison. Our attention to perfection at every step of the manufacturing and stringent quality checks ensures our products laid down national and international standards.

Our Wonder Carcass Bags are extensively used in the meat and fish industry for packing meat carcasses and to store fresh fish apart from being the top choice for export packaging of lamb, pork and other meat.

Our mutton cloth stockinette carcass bags are cut from a roll and are available in different lengths as per the specific requirements of our clients.

Why Choose SCS Wonder Carcass Bags/Rolls ?

Our exclusive range of stockinette bags for the meat industry is made using superior quality cotton & polyester that are environmentally friendly, food-safe while meeting international standards with respect to meat carcass exports. Wholesale meat suppliers, abattoirs, food processors and cold storage units across the world have been extensively using our Wonder Carcass Bags for years.

Here are the key features of our Wonder Carcass bags/rolls :
