Wonder Polishing Cloth- The #1 Choice for Superior Auto Detailing & Car Care

We, at SCS, understand how crucial car detailing and valeting is for your business. Whether it is an automobile company, body shop, workshop, car repair/service center or car valeting service, using high-quality tools for car detailing is key to earning your customer's trust.

Apart from imparting shine and enhancing appearance, polishing prevents rust formation, extends the life span of the vehicle, maintains the exterior paint and boosts resale value. As a premium company reputed for high-quality products, we are committed to providing superior quality, economical polishing and cleaning cloth with our brand "Wonder."

Wonder Polishing Cloth is the perfect stockinette for car detailing and valeting made from 100% pure and beautiful grade cotton. With excellent absorbability and release properties, Wonder Polishing Cloth cleans, polishes and protects wide-ranging metals used in automobiles ranging from aluminium, chrome, magnesium, stainless steel, nickel, brass, and silver. The cloth is ideally suited for removing rust from chrome, oxidation and pitting from aluminium parts and boot leather burn from exhaust pipes.

Achieve scratch-free superior polish every time

Wonder Polishing Cloth picks up and releases the protective chemicals and waxes efficiently so that the compound enters the pores of the metal and leaving a wax coating. This ability of the cloth makes it possible for the polished surface to retain the luster for a much more extended period of time while preventing the formation of rust.

The use of high-quality cotton ensures there are no scratches on the surface when buffing your paintwork.

Wonder polishing rolls, with an open texture, are the best material for hand buffing wax polish as they pick up excess wax leaving a smear-free shine. Cut off a length, and you always have a clean rag to hand.

try it to experience the real difference!

What makes Wonder Polishing Cloth the #1 choice?

At SCS, our sole focus is on your needs. We aim to ensure our clients enjoy a hassle-free experience while partnering with us. We are confident that our Wonder Polishing Cloth will contribute to your success in a significant way. No matter where your business is located across the globe or what your specific needs are in terms of stockinette rolls, you can entrust us to custom manufacture and export to match these needs.

Here are some key reasons why Wonder Polishing Cloth is the obvious choice for car detailing:

- Made from 100% superior quality cotton
- Soft, hypoallergenic and environmentally friendly
- Compatible with most chemical solvents
- Significantly reduced consumption of solutions with highly efficient pickup and release of solvents as compared to textile products
- Strong texture promotes optimal oil and water absorption
- Reusable, resilient and durable
- Highly absorbent
- Economical Pricing makes it ideal for everyday usage of vehicles.
- Perfect polishing without scratches on any ferrous or non-ferrous metal.

Using Wonder Polishing Cloth is easy!

Here are the simple directions for using Wonder Polishing Cloth:

- Cut off the desired length of cloth from the roll using a sharp pair of scissors and use it to apply polish.
- Cut a second piece from the roll to remove the polish.
- Perfectly suited for polishing and general cleaning of interiors and exteriors of vehicles

Available sizes:

We are fully geared up to meet the specific needs of our clients and offer a high degree of customization. Above all, our highly competitive prices in combination with superior quality products ensure optimum value for money.
